

Dear Patient:

In an effort to be more efficient and timely, Washington University offers a simple, secure way that ensures access to the information you need to manage your healthcare.

With the Follow My Health Patient Portal (FMHPP), you can securely:

- Communicate online with your child's physician's office
- View, track and update your child's medical record
- View your personal information
- View your child's test results
- Review past appointments
- Request new appointments

All incoming messages will be responded to within 2 business days. This method of communication can be helpful for keeping each other up to date, and can be accessed any time of the day.

Parents, legal guardians or guarantors may enroll their child/children, birth through 11 years of age at: **portalproxy.wustl.edu/minorchild**. (At this time we are not participating in the portal for children 12 through 17 years of age. Different state and federal guidelines apply to children in this age group.)

When completing the proxy form online, please use the registration code WUSMPROXY. If you have any trouble, you may call the support team at (855)797-6266 or email them at wupp@wusm.wustl.edu. Additional information about proxy accounts is provided at wuphysicians.wustl.edu/followmyhealth.

We look forward to using the Follow My Health Patient Portal (FMHPP) tool to enhance your patient care experience.

Sincerely,

Forest Park Pediatrics
